

Think you might have a urinary tract infection (UTI)?

UTIs are often called bladder infections too...

...you might have a **UTI** if you:

- Need to wee more often than usual
- Have pain or a burning sensation when you wee
- Have sudden urges to wee
- Have a feeling that your bladder isn't quite empty
- Have wee that's cloudy, smells bad or has blood in it
- Feel generally under the weather, achy and tired
